

## WATER COOLING TANK

CAPACITIES 100, 200, 300, 500, 1000, 2000, 3000, 5000, 10000, 15000, 20000 L

1. Specially design for (-) temperature and water circulation in processing unit
2. Insulated
3. Temperature maintain for maximum time
4. Auto Control Panel
5. Digital temperature gauge
6. Blowing system for water agitation
7. Argon welding, grinding, and buffing
8. Quick Cooling
9. Design for friendly environment
